A WORD FROM THE CHAIRMAN OF THE SUPERVISORY BOARD

Ladies and gentlemen, esteemed business partners,

2011 was a year full of challenges and therefore, I am pleased that Feronia achieved such good business results during the year. In the coming year we continue to seek out new opportunities to strengthen our position on the market and expand our product assortment for our customers, because they are the key to attaining our goals. In spite of continued volatility in the world economy, I remain optimistic and expect a gradual calming of the situation, which will undoubtedly enable our company to fortify its position as a market leader. At the beginning of this year we changed our top management team, and I am convinced that this change provided the company with new drive to seek out avenues for further development and find opportunities for further growth. This will certainly benefit our customers and partners, as well as the company and its employees.

At this time, I would like to thank all Feronia employees for their tireless work and dedication to the company, and wish them all the best of health and success in their personal and professional lives.

And to our dear business partners, I would also like to wish you a healthy and successful 2012. We look forward to keeping up the good work.

Robert Kay

Chairman of the Supervisory Board

A WORD FROM THE CHAIRMAN OF THE BOARD OF DIRECTORS

Ladies and gentlemen, dear colleagues and business partners,

one thing we learned in 2011 is that the only thing we can be certain of is continual change. The trend of rising prices during the first few months of the year gave way to uncertainty and declining prices the rest of the year, against a backdrop of uncertain economic prospects in Europe and continuing long-term problems in certain sectors, particularly construction.

From a broader perspective however, it was a satisfactory year in which we were able to increase both tonnage of goods sold as well as sales revenue. We remain mildly optimistic, especially based upon continuing optimistic trends in Czech mechanical engineering, the automobile industry, and exports as a whole.

In the ongoing difficult market situation characterized by price volatility, excess supply and stiff competition, we will continue to perfect our business model with an emphasis on quality customer service, quick response times and efficiency. I would like to thank all of my co-workers for their fine work this past year and count on their continued support.

In closing, I would like to wish everyone a healthy and successful 2012.

Ing. František Kopřiva

Chairman of the Board of Directors

COMPANY PROFILE AND HISTORY

COMPANY IDENTIFICATION

Company name: **Ferona, a. s.**

Identification number: **26440181**

Registered office: **Havlíčková čp. 1043/11, 111 82 Prague 1**

The company is entered into the Register of Companies kept at the Prague Municipal Court, section B, file 7143.

Date of incorporation: **21. 3. 2001**

The company was originally incorporated as Reklus, a. s., by a group of majority shareholders of the former Ferona, a. s. (identification no. 25792075) acting in concert.

As of 1. 4. 2001, the company was taken over by Ferona, a. s., (identification no. 25792075) as majority shareholder in accordance with Section 220p of the Commercial Code and based upon the takeover agreement approved by the General Meetings of both companies on 27. 6. 2001. The entry of the takeover into the Register of Companies became effective on 29. 8. 2001. Based upon the merger agreement, as of 1. 1. 2005 the company assumed the equity of the dissolved parent company STEEL INVESTMENTS GROUP, a. s.

Registered capital: **3 000 000 000 CZK**

BASIC DESCRIPTION OF THE COMPANY

Today's Feron a continues to carry out the activities of its legal predecessors, which were primarily involved in the distribution of metallurgical products throughout post-1945 Czechoslovakia under various trade names and in various organizational forms. Thus, the company carries on an entrepreneurial tradition in the territory of the Czech Republic which reaches back to 1829.

Feron a came into being as a joint-stock company in 1992, through the transformation of the state firm of the same name. During the privatization process from 1992 to 1994, ownership of the company was fully transferred from the state to private hands. In 2001, the assets of Feron a, s., were taken over by its majority shareholder, which continued with its business activities. In 2004, the company was acquired by STEEL INVESTMENTS GROUP, a. s., which, on 1. 1. 2005, merged with Feron a, s., and was subsequently dissolved. The new controlling subject of Feron a, s., became IRG Steel Limited, London, which had owned STEEL INVESTMENTS GROUP, a. s.

The primary business of the company is wholesale warehousing, including the purchase, storage, treatment and sale of metallurgical products, secondary metallurgical products, non-ferrous metals and related hardware products. The commercial activity of Feron a is primarily focused on the domestic market. The customer base consists of thousands of mostly small and medium industrial, construction, agricultural, or commercial businesses and trades which cannot effectively make purchases from manufacturers. Through its sales network of warehouses and retail stores, Feron a is able to serve a wide range of customers, from large industrial firms to small clients.

BUSINESS SECTION

REVENUE STRUCTURE

PRODUCT PURCHASING

The company purchases products which are in steady demand from both domestic manufacturers such as ArcelorMittal Ostrava, Moravia Steel and Evraz Vítkovice Steel, as well as suppliers from abroad, primarily from Slovakia (U.S. Steel Košice, Železářny Podbrezová), Poland (Mittal Poland, CMC Zawiercie), Germany (Ekostahl, Salzgitter etc.) and other countries (Marcegaglia, etc.). The spectrum of suppliers is constantly being adapted to specific market conditions. These conditions change in large part due to modifications of trade policy to suit the interests of the Feronia group.

MAJOR PROJECTS

In 2013 a new section of the R7 highway will open running from Droužkovice to Nové Spořice. The overpass is designed as a steel-concrete composite structure consisting of steel welded beams coupled with reinforced concrete slabs.

Ferona, a. s.: supplier of sheet metal for construction

IVECO Czech Republic, a. s. produces a full line of buses ranging from municipal transit to tour buses. The company also sells minibuses. IVECO Czech Republic, a. s., Vysoké Mýto is entrusted with the sale of products to the majority of countries in Central and Eastern Europe.

Ferona, a. s. - Steel Servis Centrum: supplier of precision blanks and strips

ECONOMIC SECTION

BASIC INDICATORS OVER THE PAST TWO YEARS

The company continues to fully carry out the activities of its legal predecessor, which was founded as a joint-stock company in 1992.

		2010	2011

COMMENTARY ON THE PROFIT/LOSS STATEMENT

The gross profit margin in 2011 was 1,234,158 thou. CZK, which is 55,552 thou. CZK less than in 2010. In 2011, the profit margin was nearly the same as the preceding year but with increased sales. Sales for services involving the slitting and modification of materials such as custom flame cutting of heavy steel sheets and services provided to subsidiaries totaled 126,627 thou. CZK, representing an increase of 5,396 thou. CZK, or 4.5%, from 2010.

Costs for material and energy consumed totaled 1,096,868 thou. CZK, with material for production at Division IV (Steel Service Center) amounting to 965 695 thou. CZK, or 88%. In the area of purchased services, the largest item was contracted transport (39% of purchased services), consulting (13% of purchased services) and repairs and maintenance (11% of purchased services). This year, the company continued to carefully monitor the consumption of materials and purchase of services.

Value added in 2011 was 976,906 thou. CZK, representing a drop of 110,902 thou. CZK from 2010. Total personnel costs were 553,867 thou. CZK, which was 3.5% higher than in 2010. Depreciation of tangible and intangible assets fell 7.6% from the previous year to 201,160 thou. CZK.

Company **operations** generated a profit of 276,892 thou. CZK, which was 52, 903 thou. CZK less than the previous year.

Interest paid on operating loans amounted to 132,868 thou. CZK, representing a year-over-year drop of 18.2% due to small bank margins and fewer loans drawn in spite of increased sales. However, loan interest remains the largest cost item for financial operations. Additional financial costs such as bank fees and exchange rate losses totaled 138,327 thou. CZK. Other financial revenue represented primarily by exchange rate profit was 115,537 thou. CZK.

In 2011, the company did not carry out any accounting operations affecting **exceptional profit/loss**. **Before tax profit** in 2011 was 132,494 thou. CZK.

Company performance for the fiscal year was a profit of 158,006 thou. CZK, due primarily to profit margin and revenue for products and services.

COMMENTARY ON THE BALANCE SHEET

Total assets of the company as of December 31st, 2011 remained nearly the same as from the previous year, with a total net book value of 9,443,837 thou. CZK. While sales increased slightly, this development was caused primarily by an accelerated turnover of inventory and receivables, and little investment in fixed assets.

Fixed assets, accounting for 38.5 % of total assets, remained comparable to the previous year totaling 3,536,465 thou. CZK. Fixed assets were structured as follows (given in thousands of CZK and as % of total fixed assets):

	thou. CZK	%
intangible fixed assets	9,081	0.3
tangible fixed assets	2,561,943	72.4
financial assets	965,441	27.3

The most significant **tangible fixed assets** are buildings valued at 1,491,506 thou. CZK (58.2 % of total tangible fixed assets), followed by movables valued at 512,567 thou. CZK (20 % of total) and land worth 534,303 thou. CZK (20.9 % of total).

The net value of **financial assets** was 965,441 thou. CZK, which includes the calculated value of financial investments abroad according to the exchange rate of the Czech National Bank for the crown on the last day of 2011 totaling 36,705 thou. CZK. During the course of the fiscal period, adjustments were created for the financial investments of Ferona Slovakia, a. s. (30,000 thou. CZK) and Ferona Polska, S. A. (3,000 thou. CZK) due to an increase in equity of the companies and changes in the year-end exchange rate of ČNB, while adjustments were also created for the financial investment into Pragmet, a.s. (30,000 thou. CZK) due to a drop in the value of the company's equity.

Current assets accounted for 60.5 % of total assets and during the course of the year decreased by 324,625 thou. CZK to 5,560,818 thou. CZK.

The major inventory item was **inventory of commercial goods**, which compared to last year fell by 189,084 thou. CZK to 2,413,124 thou. CZK. The immediate turnover period for inventory, calculated from the value of goods sold at cost, was 67 days at the end of the year, representing a decline of 13 days from the previous year due to a deliberate reduction in the purchase of goods at the end of the year because of continued falling prices.

The company has **long-term receivables** from security deposits for leases and the activation of mobile telephones.

Trade receivables accounted for the largest portion of the company's short-term receivables, decreasing during the course of the year by 170,701 thou. CZK to reach a net value of 2,286,372 thou. CZK. Adjustments have been created for all receivables more than 1 year overdue. Adjustments for other receivables are created based upon a risk assessment at the close of the fiscal period. The immediate turnover period for trade receivables at the end of the year was 57 days, representing a year-over-year decline of 10 days.

Short-term financial assets at the end of the year amounted to 272,608 thou. CZK, which represents an increase of more than 149 mil. CZK compared to the beginning of the year due to increased customer payments in the final days of 2011, a company-wide vacation and inability to transfer funds to cover an overdraft, as well as increased payments by customers in foreign currencies.

Accruals and deferrals of 87,352 thou. CZK represent less than 1% of total assets.

Registered capital totals 3,000,000 thou. CZK and is divided among 300 shares, each having a nominal value of 10,000 thou. CZK. The shares are certificated but not registered for public trading. Changes are described in the Appendix to the Annual Financial Statements.

The company's **equity** as of December 31st, 2011 was 3,849,233 thou. CZK, which covers 41.9 % of the total book value of the company's liabilities.

Liabilities at the end of 2011 totaled 5,310,871 thou. CZK and were structured as follows:

	in thou. CZK	in %
long-term liabilities	110,702	2.1
short-term liabilities	1,809,102	34.1
bank loans and assistance	3,391,067	63.8

The most significant **long-term liability** is the deferred tax obligation totaling 108,920 thou. CZK, the year-over-year decline of which is due to the utilization of deferred tax assets from tax losses and the suspension of tax depreciation on some tangible fixed assets.

Short-term liabilities primarily consist of **trade liabilities**, which amounted to 1,316,861 thou. CZK at the end of the year. Except for invoices for which payment had been stopped because of pending claims and liabilities to be set off, all liabilities were paid on time. Once again, for the year entire year of 2011 the company was not late with a single payment.

Bank loans amounted to 3,331,144 thou. CZK at the end of the year, not including factoring. At the close of the fiscal period, the company had drawn a short-term operating loan to finance current assets and discount loans. Liabilities from regressive factoring amounted to an additional 59,923 thou. CZK.

Accruals and deferrals at the end of the year amounted to 24,531 thou. CZK. As in past years, the largest single item was accrued interest on loans from shareholders, interest from bank loans, wage costs, and benefit payments to the disabled.

FINANCIAL SITUATION OF THE COMPANY

From the Annual Financial Statements it is clear that the financial situation of the company is stable. The total volume of short-term receivables at the end of 2011 exceeded the volume of short-term liabilities by 848,225 thou. CZK and the company was not insolvent.

The total debt of the company has been maintained at a viable level and the company is not late with the payment of any of its liabilities. In 2011, the company continued to maintain the confidence of its banking houses, and together with its subsidiary Feronia Slovakia, a. s. renewed its financing going forward. As of 31.12.2011 the share of company liabilities amounted to 58.1 % of total assets.

The ratio of bank loans and assistance to total revenue at the end of 2011 ranged around 23.3%, representing a drop of 1.7% from last year.

RESULTS OF THE CONSOLIDATED GROUP

In 2011, group companies took in revenue from the sale of goods totaling 17,209,416 thou. CZK, which is 15.4 % more than last year. Value added was 1,400,574 thou. CZK. The consolidated result of operations as of 31.12.2011 was a profit of 357,314 thou. CZK.

The **consolidated profit/loss** (without minority shares in profit/loss but including shares in profit/loss in equivalence) was a profit of 158,780 thou. CZK.

The value of consolidated **assets** at the end of 2011 was 11,052,126 thou. CZK and the value of **equity** increased to 3,906,011 thou. CZK.

EVENTS OCCURRING AFTER THE CLOSE OF THE FISCAL PERIOD

After the close of the financial statements, at the beginning of the year the company implemented the organizational changes which had been prepared, although in conjunction with the resignation of the General Director and Business Director and the termination of their employment as of 31. 1. 2012 additional organizational changes were carried out as of 1. 2. 2012:

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF FERONA, A. S.

We have audited the accompanying consolidated financial statements of Ferona, a. s., headquartered at Havlíčkova 1043/11, Prague 1, 111 82, ID no. 26 44 01 81, comprised of the balance sheet as of 31.12.2011, the profit and loss statement for the period from 1. 1. 2011 to 31. 12. 2011, as well as the appendices to these statements and summary of significant accounting methods used.

STATUTORY BODY'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The statutory body of Ferona, a. s., is responsible for compiling consolidated financial statements which give a true and accurate picture of the company in accordance with Czech financial reporting standards, and for implementing and maintaining internal controls to ensure that the consolidated financial statements are free from material misstatement due to fraud or error.

AUDITOR'S RESPONSIBILITIES

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We have conducted our audit in accordance with the Auditors Act and International Audit Standards and the related application clauses issued by the Czech Chamber of Auditors. In accordance with these regulations we are required to comply with ethical requirements and plan and perform the audit so as to obtain reasonable assurance that the consolidated financial statements are free from material misstatement.

The audit involves performing procedures to obtain evidence regarding the amounts and disclosures in the balance sheet. The procedures selected depend on the auditor's judgment, including the assessment of the risk of misstatements in the consolidated financial statements due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements. The purpose of this assessment is to design audit procedures that are appropriate under the circumstances, not to express an opinion on the effectiveness of the entity's internal control. The audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the assets, liabilities and financial position of Ferona, a. s., as of 31. 12. 2011, and of its expenses, revenue and income from operations for the period from 1. 1. 2011 to 31. 12. 2011 in accordance with the applicable Czech accounting regulations.

AUDITOR'S VERIFICATION OF THE REPORT ON RELATIONS BETWEEN RELATED PARTIES

We have verified the accuracy of the information contained in the report on the relations between related parties of Ferona, a. s., for the period from 1. 1. 2011 to 31. 12. 2011. The statutory body of Ferona, a. s., is responsible for compiling this report on relations. Our task is to issue a statement based upon our verification of this report on relations.

We have carried out this verification in accordance with AS no. 56 of the Chamber of Auditors of the Czech Republic. This standard requires that we plan and conduct verification with the goal of obtaining reasonable certainty that the report on relations does not contain any material misstatements. Verification is restricted primarily to making inquiries of personnel and applying analytical procedures to verify in select manners the material accuracy of the information. Therefore, verification offers a lesser degree of certainty than an audit. We did not conduct an audit of the report on relations, and are therefore not issuing an auditor's opinion.

Based upon our verification, we did not determine any circumstances which might lead us to believe that the report on relations between related parties of Ferona, a. s., for the period from 1. 1. 2011 to 31. 12. 2011 contains any significant material misstatements.

REPORT ON THE VERIFICATION OF THE ANNUAL REPORT

We have also verified the consistency of the annual report of Ferona, a. s., with the consolidated financial statements contained within this annual report, as well as with the unconsolidated financial statements of the company as of 31. 12. 2011, for which we issued an opinion on 15. 3. 2012 which may be found in item 14 of the annual report. The statutory body of Ferona, a. s., is responsible for the accuracy of the annual report. Our task is to issue an opinion on the consistency of the annual report with the consolidated financial statements based upon our verification.

We have carried out this verification in accordance with international auditing standards and related applicable clauses of the Chamber of Auditors of the Czech Republic. These standards require that the auditor plan and conduct verification so that he obtains reasonable certainty that the information contained within the annual report describing matters also reflected in the financial statements is, in all major aspects, consistent with said financial statements. We are certain that the verification provides an adequate basis for the auditor's opinion we have issued.

In our opinion, the information contained within the annual report of Ferona, a. s., as of 31. 12. 2011 is, in all major aspects, consistent with the aforementioned consolidated financial statements.
